

## experience:

HSB Architects + Engineers: Architectural Intern/Studio Designer/Asst. PM 2012-Present

Accountable for all necessary tasks that take place in a firm, ranging from managing clients/projects, construction documents, masterplanning, marketing, graphic design, BIM modeling, field measuring, detailing and schematic design. Type of work varies from commercial to industrial to health care to education. Commonly managed multiple 6 to 7-figure projects simultaneously; responsible for traveling around the nation throughout the construction process to properly document and assess projects. Very experienced with corporate clients and coordinating between dozens of major project players.

Island Drafting & Technical Institute: Consultant/Program Advisory Committee 2010/2014

Responsible for research, drafting software evaluation and comparison as well as preparing documentation in support of research and evaluative findings. Successfully delivered on-site lectures relative to new software tools used in the Architectural field today. Board member who attends Bi-annual meetings to discuss on-going curriculum and program opportunities.

Michael J. Palladino, Inc: Architectural Intern 2010

Prepared documentation and AutoCAD drawings for residential projects in various stages of design. Assisted with initial designs after concept identified and approved by customer. Procured various documents and associated information for variance hearings. Conducted and participated in design meetings and plan reviews as necessary.

Art of Form: Architectural Intern 2010

Developed plans/section/elevations and details for existing projects. Coordinated efforts with other vendors or project partners as directed by management.

## education:

Kent State University | Cleveland Urban Design Collaborative: Fall 2011 - May 2013
